Canada and the United States

In these days of almost universal unrest, words of advice and warning are so frequently uttered and written that there is grave danger of the public ear becoming dulled, and the cold fable repeating itself, and the cry of "wolf, wolf" so often sounded being disregarded when actual danger is imminent.

Nevertheless, at the risk of but adding to the alarms given, the writer of this column ventures to declare without equivocation of any kind that danger is threatening Canada, the British Empire, the United States, and through these great English-speaking nations, is threatening the world.

A delicate propaganda is being engineered throughout the English-speaking world, but more especially in the United States, to create and develop a feeling of antagonism, of suspicion, of hate, between the people of the United States and the people of the British Empire. And because Canada is British, and the next door neighbor of the United States, no stone is being left unturned to arouse an anti-American sentiment among people in this Dominion.

Traced to its source, this propaganda is the work of Germans and German sympathizers. Make no mistake about it. And the writer would say, as a writer in McLean's magazine said recently, "Canadians, don't fall for it." Ignominiously defeated in the Great War, all her colonies lost to her, and with loss of territory in Europe; her shipping in the hands of her former enemies; her world trade destroyed; her money at a ruinous discount throughout the world; burdened with an enormous debt, and with discontent and rebellion seething at home, Germany is striving almost with desperation to retrieve in peace what she lost in war. Unless she can do so, unless she can gain a new footing in world trade and commerce, Germany's position is hopeless for generations to come.

How'd she to even partially regain all that she has lost? She sees but one sure, certain and fairly swift method, and that is to drive a wedge of suspicion and hate between the British Empire and the United States. Accomplish this, and the way is open for Germany to again emerge as a power in the world.

In the United States, the game is being played for Germany by certain politicians of the ward type catering for the German-American and the Irish-American vote. The game is being played by the Hearst newspapers. It is being played by the Sinn Feiners, both in the United States and Ireland.

In turn, the anti-British outbreaks fomented by these classes in the United States are used in Canada and England, but especially in Canada, to arouse a feeling of hostility in this country towards Americans. Full use is made of the discount on English and Canadian money. Retaliatory action is urged against Hearst and other American interests. A policy of nagging and pin-pricking is being encouraged on both sides of the international boundary, not for the advantage of Canada or the advantage of the United States, but in order to

benefit Germany, the enemy of both. With a firm friendship cemented between Great Britain and the United States, it would, in the final analysis, matter little whether the League of Nations became a permanent institution or not, because united they can maintain the peace of the world; divided and suspicious of one another, no League of Nations could be effective.

Upon Canada devolves an enormous responsibility. A former member of the Lloyd George Government said to the writer that great as had been Canada's contribution to victory in the war and glorious as was the position this Dominion had won for itself among the nations, its recent achievements and glory were small indeed compared with the opportunity for world service now thrust upon it. Canada, he said, was in fact, the hostage for the future peace of the world. Situated, as this country is, a loyal and proud British Dominion, alongside the great English-speaking republic, its people had it in their power to bring about a unity in spirit between the United States and the British Empire which alone could make permanent world peace possible. On the other hand, Canadians had it equally in their power, by unwise and ill-considered action and the development of an anti-American sentiment to do irretrievable injury to a concord between the Empire and the Republic.

Canadians should be on their guard. They should not be led astray by the political scheming, and the pro-German propaganda, across the line. This twisting of the Lion's tail does not meet with the approval of the sound commonsense of the American people. It is the work of a noisy minority. Canadians can afford to treat it with contempt. Don't take it seriously; don't retaliate in kind. Just laugh at it, and keep on striving to create an eternal friendship between the two great branches of the English-speaking family.

France to Purchase Ships From Britain

England is Willing to Negotiate the Sale of Ships

Mr. Bignon, French Undersecretary for the Mercantile Marine, announces that he expects important and speedy results from his visit to London and his conversation with British ministers respecting ships and coal.

The attitude of the British authorities is sympathetic and conciliatory, and they expressed surprise at the charge that England is retaining more tonnage than she is justly entitled to at the expense of France.

Mr. Bignon points out that France cannot expect to receive a present of a fleet, but England is willing to negotiate the sale of ships. She has to consider her own position as a sea power, and, according to Mr. Bignon, France has reason to be grateful for her concessions.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers if your children do not sleep well, if they are cross and cry a great deal give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthy sleep. They are absolutely guaranteed free from opiates and may be given to new-born babe with perfect safety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Flora.—In my brown suit and squirrel toque.

It's just as desirable to know when to forego an advantage as it is to know when to grasp an opportunity.

A Fitting Response

Great Britain Claims Nothing More In Ireland Than The United States Did In The South

When Mr. Lloyd George said in the House of Commons that De Valera is putting forward in this country "the same claim in exactly the same language as Jefferson Davis did" and that Great Britain claims nothing more in Ireland than the United States did in the South "and will stand for nothing less," he made a proper response to the Senate's recent middlemost resolution in favor of the Sinn Feiners. It has never been difficult to put Congress on record in support of the schemes of insurrection, secession and independence on the part of other peoples, but for some reason or another such doctrines as applied to ourselves are always passionately resented. — New York World.

Minard's Liniment Relieves Neuralgia

What He Swept
Master.—Haven't you swept the shop out yet, John?
Boy.—No sir.

Master.—Then what on earth have you been doing.
Boy.—Sweeping the dust out, sir!

Faint and Dizzy Spells, Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness. No remedy will do so much to nerve the heart, regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont. writes:—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and rest for my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c. a box at all dealers of mail order on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

United States Imports From Alberta Increase

Value of Cattle Exported Amounted To Over Three Million Dollars For 1919

According to the report issued by the United States Consul at Calgary, S. C. Reat, the exports from the province of Alberta to the United States for 1919 show a large increase of approximately \$7,000,000 over the total declared exports for the previous year.

The total declared exports from the province for 1919 was valued at \$17,585,332, as compared with the total exports for 1918, valued at \$10,032,005. Of this total for 1919, \$10,994,387, was involved through the Calgary office; \$4,895,324 through the consular agency at Edmonton and \$1,695,621 through the consular agency at Lethbridge.

Cattle headed the list in the Calgary office with a value of \$3,853,131 in 1918. Hides came next with a value of \$677,919, being an increase of 100 per cent. over the previous year. In meat and meat products, there was a decrease of \$1,147,909. The export of wool shows a marked increase—from 12,361 pounds, valued at \$26,536 in 1918, to 243,756 pounds, valued at \$42,594, in 1919.

Since December 15, 1919, when the embargo in the United States on wheat was lifted, 143,343 bushels, valued at \$339,248 have been exported up to January 1, 1920. Oats show a slight decrease in quantity and value amounting to only \$317,073. Butter shows an increase of over \$100,000, the total value of the export in 1919 being \$139,121.

The principal article exported from Edmonton was raw furs, valued at \$1,833,996, an increase of \$74,199 over 1918. Ranking next in importance was the export of meat, valued at \$1,176,675. In 1918 the value of meat exported from Edmonton amounted to \$816,093. The value of cattle exported amounted to \$485,427, which in 1918 amounted to \$14,796.

British Columbia to Change Road Rules

Act to Change Rule of the Road Is Introduced in Legislature

Legislation to amend the highway Act to the extent of changing the rule of the road in British Columbia has been introduced in the Legislature by the government. At present the practice is to drive by the left. Under the new legislation the greater portion of the province would adopt the new rule in July next, but Vancouver Island and those sections of the mainland served by the British Columbia Electric Railway Company would be given until December 31, 1921, to effect the change. The reason for this is that the railway company will have extensive alterations to make in its track and cars, involving, according to its own officials, an expenditure of from \$700,000 to \$1,000,000. This money will eventually come out of the public, either through increased street car fares or else by taxation if the government elects to pay the bill.

The change in the rule of the road is to be effected on the ground that the right hand drive prevails practically throughout the North American continent. Tourists from the United States and other parts of Canada coming to British Columbia have in the past experienced difficulties because of the left hand drive in this province.

Salmon Ship Sails For the Far North

Must Take Entire Season's Supply Of Food As Well As Clothes

For Workers
San Francisco, California. — The Star of Russia is the first ship of the Alaska Packers to sail this spring for the far north. Each cannery of that company is supplied by one of the famous 18 "star" ships, which are among the last of the old square-rigged vessels once so common in the Pacific. The ship must take an entire season's supply of food, cans and machinery, as well as clothes for the workers, as most of the canneries of the Alaska Packers are too far away from any dependable source of supply to permit replenishing their stores during the busy fish "run." At the cannery the ship becomes a combination of warehouse and store at which the cannery workers and native Indians supply their needs for the entire year. At the end of the season the season's pack is loaded aboard and the ship again sets sail for the Golden Gate.

DAD! YOUR HAIR IS FALLING FAST

"Danderine" Will Check That Ugly Dandruff and Stop Hair Coming Out.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

Not Exactly A Triumph
Arthur (bitterly).—I suppose you consider it a triumph to make a fool of me?
Joan (sweetly).—Oh, no! A triumph means accomplishing something that was very difficult.

A Constipation Cure

A druggist says "For nearly thirty years I have commended the Extract of Root, known as Mother Selge's Curative Syrup, for the radical cure of constipation and indigestion. It is an old reliable remedy that never fails to do the work." 30 drops three times daily. Get the Genuine at druggists.

Germans Prepare To Defeat More Red Intrigues

Berlin.—The government has succeeded in placing under arrest Major-General Baron Von Luttwitz, commander of the rebel forces in the Kapp revolt, the semi-official Wolff Bureau announces.

Paris.—The German government has decided to place guards around the government and other public buildings and has sent for 15 large tanks and 20 armored cars because of rumors of a new attempt to overthrow the government for the purpose of forming an alliance with Soviet Russia to declare war on France, according to advices from Berlin.

The Social-Democrats have issued an appeal, the advices add, calling upon adherents to register for defence of the republic against internal enemies, arms in hands.

Berlin.—Reports of continual reactionary intrigues are attracting great attention in the Berlin press.

The Tagblatt publishes an interview with Lord Kilmarnock, British charge d'affaires, in which the latter is reported to have said:

"I am convinced that a new military attempt would provoke the greatest indignation in England and the British government would repudiate it decisively. Every chance Germany has of obtaining help by way of food, raw materials and credit, would be spoiled by any acts of violence."

Peace Restored in Vladivostok

Tokio Announces Agreement Signed With Revolutionary Provisional Government

Tokio.—The war office announces that the provisional government in Vladivostok has signed an agreement accepting most of Japan's terms.

A war office communication says peace has virtually been restored in Vladivostok and that there were no casualties among the civilian residents. It adds that several minor engagements in neighboring towns were all stubbornly contested, but that all of them resulted in disarmament of the revolutionists.

A semi-official communication says General Semenov's troops are sweeping out the Bolsheviks in the region directly south of Chita.

Magazines May Be Suspended

New York.—Publishers of several periodicals of national circulation have decided to combine two issues in one in order to reduce the number of pages in each, because of paper shortage due to the railroad strike, it was announced. It was also announced that the leading magazines may have to suspend publication temporarily if conditions do not improve.

Denikine Will go to England

London.—The war office has announced that General Denikine, former anti-Bolshevik leader in southwestern Russia, who had previously been reported as leaving Constantinople for Malta, will instead proceed to England.

Strikers' Release Entirely Changed Policy of Ireland

London.—The release of the Irish prisoners was by direct order of General Sir Neville McCready, and marks the beginning of an entire change in the Irish policy, according to a prominently displayed statement in the Daily Mail.

"When it became clear some time ago, says the paper, that the policy of repression was leading to dissatisfactions, the premier decided to change the policy, and, if necessary, get rid of men associated with the old regime. He suddenly and without warning told J. I. McPherson, chief secretary for Ireland, that he was to be moved to the pensions ministry, and appointed General McCready in command of the troops without consulting the Irish office. General McCready, adds the Mail, was instructed to inaugurate a new policy of conciliation and was given a free hand. In other words, he was to supersede the existing heads of the government in Ireland.

When General McCready arrived in Dublin, he ordered the release of the

Charges Against Winnipeg Janitor

Offered to Let Apartment to Highest Bidder On A Bonus For Himself

Winnipeg.—Detective Inspector Smith, of the city police force, has sworn out information against C. Smith, janitor of the Bartella apartments, Home Street, as follows:

"Being an agent for apartment block known as the Bartella apartments situated on Home Street, in the city of Winnipeg, did corruptly agree to accept, or attempt to obtain from other persons for himself, a gift or consideration for showing a favor to such persons in relation to his principal affairs of business—to wit, the letting or sub-letting of apartments in said apartment block."

The outcome of this prosecution which is possibly the first of its kind in the city, will be watched with interest by numerous anxious home-seekers. He had offered to let an apartment to the highest bidder on a bonus to himself.

Land for Irish Soldiers

Who Volunteered For Service At The Front in 1918

Dublin.—Government officials are negotiating for 1,000 acres of land which will be apportioned among Irishmen who volunteered for service at the front in 1918. Viscount Field-Marshal French, lord-lieutenant of Ireland, promised in 1918 that land would be given to those who joined the colors, and in 1919 parliament passed a bill carrying the lord-lieutenant's promise into effect. To the present, however, only 71 men who took advantage of the offer, have been provided with homes.

The only land that can be taken under the law is that which is not subject to tenancies and it may be taken from landlords under compulsion. Recent governments have followed the policy of relieving congestion by distributing of land among small tenants, and these men are beginning to display apprehension lest their claims be postponed, preference being given to those soldiers. Four thousand applications for holdings have been filed, and nearly six thousand soldiers have asked for cottages.

Protest Against Transfer Kingston, Ont.—The Kingston branch of the Army and Navy Veterans has passed a resolution protesting against the transferring of guards from the Edmonton penitentiary which is being closed up, to the Portsmouth penitentiary here.

Civil Service Bonus

Ottawa.—Sir Henry Drayton, minister of finance, tabled in the house a supplementary estimate of \$12,300,000 for civil service bonus during the financial year 1920-1921.

Raids on Dublin

Many People Have Been Arrested in Connection With Murder Of Kells

Dublin.—The labor executive has removed the embargo paid except on bacon, butter and live pigs. It entirely prohibits the exportation of bacon and pigs and urges the cessation of butter shipments until the price falls to three shillings per pound.

Monaghan and Londonderry were the only Irish counties where an abandoned barracks was not burned Easter Saturday.

Recent raids in Dublin were more exhaustive and detailed than any since Easter week, 1916. The police theory is that the murderers of Kells were three in number and that they lived in the neighborhood which was searched and immediately got shelter. Among the houses searched was the home of two of the released hunger strikers, the father and another relative of whom were arrested. Jacob's biscuit factory, a quarter of a mile from the scene of the killing, also was searched. Several men of the night shift were arrested.

Bavaria Predicts War With France

And For That Reason Germany Should Remain Solid

Geneva.—The Munich Post, a socialist organ, has created a sensation in Bavaria by publishing the report of a secret meeting of the Bavarian Party, which was attended by most of the military officers. The meeting was presided over by Herr Von Schoch, president of the Patriotic League. The principle questions discussed related to the division of Germany into two parts and the proposed overtures to be made to France to join in an attack upon Prussia. Captain Berthold, says the Munich Post, objected to the proposals, saying that the Bavarian generals would suffer the fate of Admiral Kolchak and General Denikine, the Russian anti-Bolshevik leaders. He added that another war with France was inevitable in the near future and for that reason Germany should remain solid. Several officers and politicians supported the view.

Nominate Convicted Leaders

Labor Party Decided In Favor Of Men Who Figured In Sedition Charges

Winnipeg.—Annulling the nominations made a fortnight ago, the Winnipeg Branch of the Dominion Labor Party, at a meeting in the Labor Temple, decided in favor of the ten men who had figured in the sedition charges being nominated for the Winnipeg seats at the provincial elections in July.

These men are R. B. Russell, Rev. Wm. Ivens, Ald. John Queen, W. A. Fritchard, R. J. Johns, George Armstrong and R. E. Bray, who were convicted; John Farnell, who was imprisoned for seditious utterances; F. J. Dixon, M.L.A., who was charged with seditious libel and was acquitted, and J. S. Woodworth, who is facing a similar charge.

They will not all be the nominees of the Labor Party, however, as it was decided to confer with other working class organizations, such as the Socialist party, the Social-Democratic party, and the Ex-soldiers' and Ex-sailors' party, with a view to these organizations naming their own particular candidates. The Labor party will confine its nominees to those of the men who are members of the party, Ivens, Woodworth and Dixon.

Was Gun Sold to Germany

Ottawa.—Did Daniel D. Hennick, living in Logan, Ont., in 1917, offer the Canadian government gun patents of his own invention, and on no action being taken, did he sell them to the Imperial German government, is the information sought in a question before the house from A. J. Desbriens, member for Champlain. The member also asks if Hennick is about to return to his home in Canada, after having spent the past eight years in Germany.

Quebec Wants More Revenue

Quebec.—In an effort to find more revenue to foot the city's growing expenditures, the Quebec city council is considering various plans of taxation. It is proposed to levy a 15 per cent. tax on all business enterprises and also to pad the property valuation so as to raise by a couple of millions the revenues of the administration.

Regina, Sask.—A survey of Saskatchewan by the provincial government at the request of the National Institution for the Blind reveals there are ninety blind persons in Saskatchewan.

W. N. U. 1312

Strikers Are Released For Treatment

Prisoners Say That Their Worst Hardship Was Uncomfortable Beds

Dublin.—It was officially announced that it is not intended to release all of the hunger strikers in Mount Joy prison unconditionally, but that an order has been issued that those requiring medical treatment outside the prison will be released on parole for periods to be specified in the case of each individual by the prison doctor.

After only four of the prisoners had been removed from Mount Joy prison, the government intervened with the conditions pertaining to the reincarceration of the hunger strikers after hospital treatment.

The prisoners refused the new terms. When a danger arose that there would be a refusal of further departure from the prison by the hunger strikers, the lord mayor again visited the vice-regal lodge with a view to having the order rescinded. The lord mayor stated on his return that the prisoners would be released unconditionally.

The prisoners had refused to accept the stipulation on the ground that it was a re-application of the "cat and mouse" policy.

The release of the prisoners announced at five o'clock in the afternoon is regarded as a complete triumph for the hunger strikers and its ally, the general strike. It became known early that Viscount French had summoned the lord mayor, and that it was then only a question of terms.

It is not definitely known what the terms are, and for some days there may be contradictory statements regarding them, the trade unionists, however, have no doubt which side led won, and immediately called off the general strike, to the great relief of the citizens.

The prison board also received an order that henceforth under the Defence of the Realm Act, prisoners should receive ameliorative treatment from the date of their arrest until their trial for a specific offence.

The visit to Dublin of James Henry Thomas, general secretary of the National Union of Railwaymen and Labor member of parliament for Derby, is regarded as having some share in the decision for the release of some of the men.

It is said that an attempt was to have been made to bring about a strike in England in support of the Irish cause. Mr. Thomas made a speech from a window of the labor executive offices endorsing the action of the hunger strikers.

The absence of military from the streets was conspicuous. There were no tanks or armored cars posted at the jail, and the barbed wire barricades had been removed. The Irish volunteers' resumed charge of maintaining order outside the prison and were implicitly obeyed.

The released prisoners in the Mater Misericordiae hospital say that the prison staff and ordinary officers at Mount Joy were kind in their treatment of them; their worst hardship was uncomfortable beds. They were indignant at two proposals made to them by the authorities, which implied that certain of the men should desert their colleagues. Their attitude was "all or none."

To Eliminate French Language

Orange Delegation Presented Petition To Nova Scotia Council

Halifax.—A delegation from the Grand Orange Lodge appeared before the council of public instruction and presented a petition pointing out that the French language had no official status in Nova Scotia and asking that it be absolutely eliminated, either as a medium of study or instruction in primary grades.

The delegation also expressed its disapproval of the present separate school system. The council replied that the matter will be considered.

Russian First to Open Fire

Washington.—An official statement by the Japanese war office on recent events at Vladivostok arrived from Major-General Inouye, military attaché at the Japanese embassy, who says the Japanese decision to disarm the Russian army and navy at the Siberian port was reached only after the Russians had opened fire on Japanese sentries and patrols, and attacked the Japanese marines supply train.

Twenty-Nine Wounded

Lisbon.—Twenty-nine persons were wounded when three bombs were thrown into a crowd during a demonstration here in a protest against the high cost of foodstuffs. Two syndicate workmen were arrested. During the demonstration cabinet ministers made speeches in response to the acclamations of the crowd.

Bonar Law Says No Change In Irish Policy

Suggests United States Try Canadian Plan

Of Having An Investigation Before A Strike Is Permitted

Boston.—In a speech delivered at a luncheon here, Major-General Wood dealt with the strike situation. Referring to the Canadian plan of "having an investigation before a strike is permitted," he said: "In this way, Canada has built up a sound public opinion. We have not built up any public opinion here. We do not get the facts concerning strikes. The coal strike in Kansas, for instance, was a strike for longer working hours. The men were allowed to work only eighteen hours a week because there were no cars to move the coal and no place to store the coal, and they could not live on eighteen hours' work a week. That happens to have been the inside fact in that strike, yet nobody knew anything about it. The steel strike was something quite different; and so with the coal strike in West Virginia. We want to build up a sound public opinion here. Public opinion rules in this country."

May Break Relations

Russian Soviet and Poland Unable To Reach Agreement

Warsaw.—In rejecting further discussions regarding Borisov, on the Bernesina river northeast of Minsk, as the place for the proposed peace negotiations of Poland and Russia, the Russian Soviet government has sent a wireless message saying it considered the last note of the Poles in the nature of an ultimatum.

It was now standing face to face with the sad eventuality of breaking with Poland owing to the failure to agree upon the locality," the message says. It reiterates that the Bolsheviks are ready to accept any neutral town and suggests the possibility of holding the peace conference in Paris or London. The message concludes by saying that Russia's only alternative has been to address England, America and France.

It is expected here that the entente note to Poland on the subject will be made public in a few days.

Fined For Having 22 Beaver Skins

Dawson.—A fine of \$500 was imposed here on Ole Samuelson by Judge Macneaney for having in his possession 22 beaver skins. Samuelson and his partner have arrived here from the Ledue district of White River with about \$25,000 worth of skins, including the beaver, some foxes and 230 marten. It is illegal to kill beaver in this territory.

Opium Sent As Eggs

Calgary.—Twenty nine of opium, valued at \$2,000 were seized by police here. The opium was sent from Montreal to a local Chinese firm and was secreted in a case of eggs. The police are trying to locate the owner.

Col. Morden Says Ottawa May Be Capital of Empire

Ottawa.—Addressing members of the Empire Parliamentary Association at a dinner in the Rideau Club, Col. Grant Morden, a member of the British House of Commons, declared that the idea that Canada, having become a nation within the British Empire, was strong enough to stand alone was not only a fallacious, but a dangerous view. Other speakers during the evening were Senator Foster and Hon. MacKenzie King.

Col. Morden scouted the idea that Britain had been ruined by the war. It was true he said, that Britain had a debt of eight billion pounds, but more than ninety per cent. of this was an internal debt and the balance was more than doubly covered by the loans made the allies. The country was exceedingly poor after the Napoleonic wars, as compared with today.

Colonel Morden paid a tribute to Lloyd George, who had proved himself a leader enabling Britain to win the war, and who was now showing

London.—Andrew Bonar Law, the government leader, in answer to questions in the house regarding the release of Irish hunger strikers from Mount Joy prison, stated that they had not been unconditionally released.

This statement contravened reports received from Dublin. Mr. Bonar Law also denied there had been any reversal of the government's policy, declaring that the present situation of the hunger strikers was similar to that of William O'Brien, alderman of Dublin, who was removed from jail to a hospital on March 26. Mr. Bonar Law said the government had declined to release O'Brien, but had expressed willingness to send him to a nursing home owing to his condition.

Mr. Bonar Law read a despatch from Viscount French, lord lieutenant for Ireland, as follows:

Following the O'Brien precedent, authority was given to the governor of Mount Joy prison to liberate any prisoners awaiting trial for deputation, who were found by doctors to be in imminent danger of death and requiring treatment which could not be given in prison. Under these orders 60 prisoners have been released on parole for a period differing in each case according to its particular nature. I should expressly state that mistakes have been made by the prison authorities, and some of the 60 were men who had been convicted, and were serving sentences, were in no case entitled to be released on parole. I think this should be expressly made known so that it may be understood that such action as was taken in regard to the hunger strikers was based on the decision with regard to ameliorative treatment. Release on parole was never intended to apply to the case of the men who were convicted on trial.

John Robert Clynes, Labor, asked Mr. Bonar Law whether he could not think this a fitting occasion for some change in the government's Irish policy in the event the release of these prisoners produced a much improved situation in Ireland.

Mr. Bonar Law replied: "We shall be only too glad to change our policy if conditions change, but I cannot say anything more than that we must take every precaution in our power to protect life."

Traitor to Die

Marseilles.—Louise Boulaine, who, in 1914, denounced to the Germans a French soldier, her neighbor, Michel Amedee, was condemned to death by a court-martial.

Amedee was executed an hour before an order for his pardon was received by the German officer to whose charge he had been remanded.

Potatoes Taken Off Menu

Seattle.—Potatoes selling here at \$200 a ton, have been put under the boycott of the Seattle Restaurant Association, and will disappear from the menu of the members' establishments until the price has again reached normal level. More than 100 Seattle restaurants are reported in the association.

A WORD IN SEASON

To us it looks as though the trade of the country is so scattered that the town which puts forth the most effort in that direction will eventually succeed in landing far more than her legitimate share of business. At present, while time hangs on the hand of the average man, he takes time to look around, and then spends his money where it will go the farthest, and to us it seems that the merchant who offers him good values for his money will eventually reap golden rewards in the way of his future trade. This fact we would impress upon the minds of the people and we would also ask them to aid us in establishing the fact that in our town can be found better bargains than elsewhere. If we once get the faction established, Chinook will soon be handling far more trade than rightfully belongs to her. Let us join hands and make it so.

PUBLICATIONS AVAILABLE FOR DISTRIBUTION

The Department of Agriculture at Ottawa includes in its available publications some four hundred titles which embrace practically every phase of farming in its broadest sense in Canada. The new list recently issued contains thirty new publications which relate to dairying, field crops, insect and plant diseases, live stock, the orchard and garden, and poultry. In the miscellaneous list is included "Farm Feeds," "The Use of Coarse Grains for Human Food," and a new edition of "The Maple Sugar Industry in Canada." All these publications are for the free use of the citizens of Canada and are obtainable for the asking from the Publications Branch of the Department of Agriculture at Ottawa.

NEW TRAIN SERVICE ON NATIONAL LINES

With the new time table which took effect on the co-ordinated lines of the Canadian National-Grand Trunk Pacific railways on Sunday, October 3rd, very much improved service is afforded the travelling public of Western Canada. New trains have been placed in operation over the co-ordinated lines to facilitate travel not only on the main lines of the system but also on local lines. New and improved service is being inaugurated between eastern and western Canada, effective October 16, which will give double daily service between Winnipeg and all eastern points, through trains being operated daily from Winnipeg both to Toronto and Ottawa and Montreal. Westbound "The National" runs daily to Vancouver via Saskatoon and Edmonton. Through standard sleeping cars between Montreal and Vancouver are being operated in conjunction with the new service. The new folders are available to the public and can be obtained from any agent of the Grand Trunk Pacific or Canadian National Railways.

An old couple had lived together forty years. The man said that he and his wife never agreed but once in all that time, and that was when the house took fire; both agreed that the best thing to do was to get it out as soon as possible.

U.F.A. READY FOR BIG DRIVE

Greenfield Confident that Alberta Organization will make Record Showing.

Herbert Greenfield, Westlock, Vice-President of U.F.A. and chairman of the U.F.A. organization committee, advises that everything is in readiness for the big drive during the first week in November.

Most of the preliminary work has been done and it is expected that on November 1st and November 2nd upwards of 3000 enthusiastic U.F.A. supporters will be in the field visiting their neighbors and soliciting for memberships in the association.

The organization work in both Manitoba and Saskatchewan has been progressing favorably and reports from "district captains" indicate that the morning of November 1st will see upwards of ten thousand active workers beginning their canvass in all the rural districts in the three provinces.

In this drive an endeavor will be made to have a representative of the farmers association visit every resident farmer between the City of Winnipeg and the Rocky Mountains. The head of every household will be asked to contribute the sum of \$3.00—no more no less. This amount will pay for a year's membership in the association, a year's subscription to the official organ and leave \$2.00 to be used by the central and district boards for organization purposes.

Associated with Mr. Greenfield on the Alberta Organization Committee are L. M. Goetz of Red Deer and Snow Sear of Nanton. All are members of Board of Directors of the U.F.A. The committee has fixed an objective of 50,000 U.F.A. members for the year 1920 and all are confident that this figure will be reached.

Mrs. F. Flater, of Cereal, moved into town last week, where she will reside during the winter months.

Our old times, Mr. John Prescott Guild, left last week for Boston, the "Hub of the Universe," and after visiting his old home in Vermont he proposes to return to Chinook and complete his bungalow, which he advertises to rent in this paper. Mr. Guild suggested the name Chinook for the first post office, which was moved here from Mr. Neff's farm four miles south-east of the present town. He was also the printer's "devil" in the Advance office the first five months of its publication.

Trying to do business without advertising is like winking at a pretty girl through a pair of green goggles. You may know what you are doing, but nobody else does.

TAX SALE

Sale of Lands in the Municipal District of Coliholme, No. 243, for Arrears of Taxes.

NOTICE IS HEREBY GIVEN that certain lands in the Municipal District of Coliholme, No. 243, will be offered for sale for arrears of taxes and costs, unless the said arrears of taxes with costs are paid before the date of the sale. The sale will be held on Saturday, the eleventh day of December, 1920, commencing at 10 o'clock in the forenoon, in the Assembly Hall of the Chinook Consolidated School.

A full list of the said lands may be obtained on application to the Secretary-Treasurer of the Municipal District, or may be seen in the issue of the Chinook Advance dated October 21st, 1920.

Dated at Chinook this 18th day of October, 1920.

LORNE PROUDFOOT,
Secretary-Treasurer.

*NOTICE OF IMPOUNDMENT

NOTICE IS HEREBY GIVEN under Section 209 of the Municipal Districts Act that one dark bay gelding, weight about 1,100 lbs., small white spot on forehead, no visible brand, wire out inside left fore leg, was impounded in the pound kept by the undersigned on the SW quarter of section 9, township 27, range 7, west of the fourth meridian, on Monday, the 28th day of June, 1920.

Dated at Big Spring this 17th day of September, 1920.

J. MADILL

DISTRICT-PASSENGER AGENT, EDMONTON, ALTA

Advocates Federal Aid For Development of Alberta Coal Resources

In debating the development of natural resources in the house of commons, Major D. L. Redmond, Calgary, said he had no use for the general idea put forth by Socialists about state control, but he believed the government could do some very useful and valuable work in taking hold of some scheme to see that the natural resources were developed along right and proper lines.

Major Redmond urged a definite government policy of co-operation in the development of natural resources. Scientific research along this line should be encouraged in every possible way and no policy of "penny wise and pound foolish" should be allowed to interfere with the sound development of the country's resources. Until some definite decision was made about handing over the country's natural resources to the provinces, responsibility for the development of these rested on the Dominion government, said Major Redmond. The Dominion government, he said, ought to co-operate by assisting scientific research into the possible utilization of low grade iron and coal. If these

could be made marketable, all would benefit. There was plenty of good coal in Alberta, he said, if railway rates could be modified to enable Alberta to compete for eastern trade and in this connection, Major Redmond, supported an application which was pending before the railway commission for a reduction in the rates on coal from Alberta during the summer months to permit the mines being kept going uniformly 12 months in the year and to permit of the movement of coal traffic at a season when freight cars were available.

W. A. Buchanan, Lethbridge, spoke on the coal deposits of the west. He stated that 87 per cent. of the coal in Canada was to be found in Alberta and though it might be difficult to get this coal into the provinces of Ontario and Quebec, it would be worth the while of these provinces to encourage its production for use in the west thus saving Pennsylvania coal. He stated that the source of coal supply for Ontario and Quebec in Pennsylvania was gradually becoming depleted.

Mr. Buchanan ascribed much of the unrest among Alberta miners to lack of steady employment which in turn came as a result for there being no permanent market for western coal. Transport difficulties might also be overcome by educating people to store coal in the summer for the next winter's supply. He advocated the grading of western coals, which would stabilize the sales.

Growing Interest In Western Canada Farms

Settlers From U. S. Are Welcomed
In True Community
Spirit

Increased interest in western Canada farm lands in many parts of the United States, and bright prospects for a big influx of American settlers, to the prairie provinces of Canada this season, are reported by the vanguard of new farmers from across the line. To some extent the interest is due to the abnormally high price of lands prevailing in the States and in a larger to the hospitable treatment of the newly arrived settlers by people of the communities into which they have located. Land prices in Western Canada, while cheaper in comparison with those in the United States, give the purchasers as good, and in many cases, much better land, as well as a great saving of capital.

Near Dwight, Illinois, for instance, land that sold for \$40 an acre twenty years ago is today selling for \$600 an acre. An English syndicate owns a large estate of 50,000 acres near to Dwight, and has been renting it at \$10 an acre. Lately the rental has been increased to \$25, with the result that many tenants are vastly dissatisfied and are bent on making a change. Naturally they look with great attention to Canada, as a country where they can make permanent homes for themselves, and where their children will not have to face the problem of high rents of land. Purchasing land at \$600 an acre is, of course, out of the question for practically all of them.

Some of these Illinois farmers purchased in Manitoba and Saskatchewan last year. They were loth to leave their old homes and seek their fortunes in a new land, as they felt they would be amongst strangers, who in no way would be interested in their welfare. They were surprised and delighted, however, on arrival to be met at the stations by the people of the communities in which they had decided to locate, who welcomed them to their new homes and served them with sandwiches and coffee. Their homes had been heated up by these cordial neighbors, who had been hauled into the barns for their stock and in one case a community social held in the church to make them feel at home and to give them an opportunity of at once becoming acquainted with their neighbors. These settlers are now sending enthusiastic letters to their friends back in Illinois and Iowa, telling them of conditions as they have found them and urging them to come to Canada and establish homes here.

Champion of Canada

Producing 21,569 pounds of milk, yielding 1,061 pounds of butter under an official test for one year, a senior 2-year-old Holstein heifer has attained another world's record for the Colony Farm herd at Essondale, B.C., and becomes champion of Canada. This animal is being "grounded" to beat the record of the famous California cow, Tilly Alarcia.

Romance Of Handley Page

Absorbed in Work of Designing Aeroplanes For 14 Years

The romance of Frederick Handley Page and the romance of the evolution of the large, commercial aeroplane are one and the same thing. The brilliant aeronautical engineer and inventor is only 34 years of age, and he has been absorbed in the work of designing aeroplanes for 14 years. Beginning his trade as an electrical engineer with the firm of Johnson and Phillips in Glasgow, Scotland, he made a name for himself by a profound paper in "Design of Direct Current," read before the institute of electrical engineers, the Westinghouse Company of Pittsburgh, immediately made him a tempting offer to take over experimental work, but he refused, believing it to be his life work to build perfect flying machines.

His first experiment in 1906 took the form of a small box kite, "a most outrageous idea," to use his own later words. From this he proceeded to the construction of monoplanes of original design, which were not very successful. In 1911 he commenced work on the larger type of machines, which were used with such effect during the war as bombing raiders. During the last few months he has developed a commercial aeroplane that is regarded as being amazingly successful.

Building Activity

Alberta Building Programme For
This Year Involves Sum Of
Fifteen Millions

New Buildings to the value of \$15,000,000 will be erected in Alberta during the present year. This estimate has been arrived at by A. R. Whittemore who is the general manager of the McLean daily reports, an organization meaning to the building trade in Canada what Dun or Bradstreet meant to the financial world.

Mr. Whittemore observes there is a notable tendency to erect community halls in Alberta, while at least 500 houses will be built in the province during the next six months. At least forty additional schools are being planned which will all tend to swell the building programme of the province.

Offices, warehouses and theatres are also among the buildings contemplated. Several of the cities of Western Canada issued more building permits last month than they have done in the corresponding month for several years past. At Winnipeg, Manitoba, their value exceeded \$539,900; at Calgary, Alberta, \$334,000; and at Saskatoon, \$260,550.

Cost of Stefanansson's Trip

According to a return tabled in the House of Commons recently, the cost of the Stefanansson expedition to the Arctic was \$519,370.97. This sum included the cost of ships and supplies.

Guinea pigs begin to breed at the age of ten months.

Mounted Police Of Canada

Force Must Watch Frontier And
Indians As Well As
Enforce Laws

The report of the Commissioner of the Royal Northwest Mounted Police, A. Bowen Perry, will be the last of its kind, as the designation of the body of men has been changed to the Royal Dominion Mounted Police. The report is for the year ending September 3, 1919. The old force has now become the sole federal police force of the Dominion, its authorized strength having been increased from 1,200 men to 2,500.

Its duties have been defined as follows: (a) The enforcement of federal laws; (b) The patrolling and protection of the international boundary line; (c) The enforcement of all orders-in-council passed under the "War Measures" Act, for protection of public safety; (d) generally to aid and assist the civil powers in the preservation of law and order wherever the government of Canada may direct.

In the course of his report Commissioner Perry touches on these duties as follows: To patrol the international boundary for the purpose of assisting the customs and immigration officials; to maintain law and order amongst the Indians on their reserves, and especially to prevent the use of intoxicants; to supervise the mining and industrial areas; to watch the settlements of enemy nationalities and foreigners whose sentiments might be disloyal and attitude antagonistic; and to enforce law and order in the northwest territories and Yukon territory, and in the national parks where the force is the sole authority.

The new force also took over from the Dominion Police the duties of registration and controlling of alien enemies, the enforcement of the Military Service Act, the maintenance of the secret service and the protection of the navy yards at Esquimaux. Naturally, some of these duties since the cessation of the war have ceased to be effective. The report points out that "the general situation in western Canada during the past year has caused anxiety. The war left the world normally, physically and materially exhausted, and unrest everywhere. Canada has not escaped. Sections of our population have been affected and as a result, some of the strikes have had a sinister purpose although probably not realized by many who took part. The most serious was the Winnipeg strike which occurred last May and which led to sympathetic strikes in Brandon, Saskatoon, Edmonton, Calgary and Vancouver."

Remarking that during the war enemy aliens in the Dominion gave no cause for anxiety, comparatively few of them being interned, the commissioner reports as follows: "Before the war, many had been employed in railway construction which ceased when the war broke out, and these people sought employment in the large industrial centres and filled the places of our fighting men. They, as well as all foreigners, received the most considerate treatment as long as they obeyed the laws of the country and pursued their ordinary vocations. The returned soldiers found them filling their jobs and enjoying prosperity. In Winnipeg, Calgary, Medicine Hat, and other points, the resentment of the soldiers found expression in small disturbances provoked by the indifference and words of these people, who, as a body, have shown little appreciation of the just and fair treatment meted out to them by the people of this country. They have shown themselves ready to follow and support the extremists who play upon their ignorance and appeal to their national prejudices and sympathy for the central power. Bolshevism and a fertile field among them and is assiduously cultivated by the ardent agitator. The assimilation of our large alien population is of the greatest importance and it demands wise and sympathetic action and constant attention."

The Future of Durum Wheat in Western Canada

The word Durum is not applied merely to a variety of wheat, but to a group of varieties which differ from each other almost as much as the various sorts of ordinary wheat. The Durum varieties have, however, several characteristics in common. They are usually bearded and have short, compact heads; the straw is rather weak; the kernels are extremely large and, as a rule, exceptionally hard. Most or all of the Durum varieties are more resistant to drought than ordinary wheats. This does not mean, however, that they will produce a good crop under very adverse conditions. Some of them show a good deal of resistance to rust, though they vary considerably in this respect. In the bread-making qualities of the flour made from Durum varieties, there are very large variations. Some of these varieties, such as Kubanka, are excellent for bread-making, while others, the majority perhaps, are decidedly inferior. The flour is usually of a yellow color, sometimes bright and pleasing as in the case of Kubanka, and in others dull and unattractive. It is obvious, therefore, that if one decides to grow Durum wheat, the choice of the particular variety to be sown is not a matter of indifference.

The objections to the best varieties of Durum wheat arises not only from the yellow color of the flour, (a shade which is not fashionable at present), but to the extreme hardness of the kernels. Durum wheat in pure condition cannot be ground into flour by exactly the same system as ordinary wheat, and if the miller has to deal with a mixture of Durum wheat and common wheat, the problem presented is very troublesome. Naturally, the millers are averse to changing in their methods and will not do so unless a shortage of ordinary wheat and

the presence on the market of considerable quantities of Durum. The yellow color of the flour is an objection the seriousness of which can easily be exaggerated. Provided, as in the case of Kubanka, the color is bright, it is hard to imagine that the public would refuse to purchase the flour. The usual demand, however, is for white flour, and for yellow butter, even if it has to be artificial colored. Of course the public is not very logical in setting these standards, but those who grow wheat for sale must bear in mind the wishes of the consumers.

In the northwestern United States there was a hard struggle before Durum wheat became established as a recognized and profitable article of commerce. Probably a similar struggle will occur in Canada, and those who are pioneers in the growing of Durum wheat may very likely find it unprofitable, though it seems almost certain that ultimately Durum varieties will be more remunerative to farmers in the southern portions of Alberta and Saskatchewan than the varieties which are now usually grown there.

It is difficult to advise farmers what should be done at present. So long as there is a good demand for Durum wheat for seed purposes all will go well, but it will be a different matter when attempts are made to sell the wheat in the ordinary way for milling. A commission firm in Winnipeg has been quoted as having given the following advice: "Don't grow any more Durum wheat until more is grown." This sums up the matter very well. A farmer, before sowing much of this kind of wheat, should assure himself that there will be a profitable market for it. Such a market will not likely be established in Canada until quite large quantities of Durum wheat are available.

New Packing Plant For Moose Jaw

Large Field to Draw From In The
Ranching Country to the
North and West

The industries of Moose Jaw, Saskatchewan, will shortly be augmented by a new abattoir and packing company, the Mid-West Packing Company, Limited. This company has secured an option on some property formerly used as a brewery and will start immediate renovations for the installation of the necessary equipment for an up-to-date plant. The company will be registered as a joint stock corporation with a capitalization of \$175,000. The provisional directors are all well known local business men.

The premises, which will include a slaughter house, packing plant and cold storage accommodation, will differ from other local abattoirs, in that it will be available for use to individual butchers and farmers for personal use in slaughtering stock, the company tendering the options of purchasing the product, selling it on commission and storing it in their cold storage plant.

A power plant on the premises, together with refrigerator and storage accommodation will make it possible for the company to make operations in the near future.

L. B. Edmondson, former general manager of the local abattoir of Gordon, Ironides and Fares, will occupy a similar position with the new firm. Mr. Edmondson is recognized as a very able man in the packing industry in Western Canada. Robert Cruikshank, another of the promoters of the corporation, is the largest individual rancher in Saskatchewan, owning huge tracts of grazing lands to the north of Herbert. The third member of the directorate is W. F. McBean of the firm of Robinson MacBean of Moose Jaw.

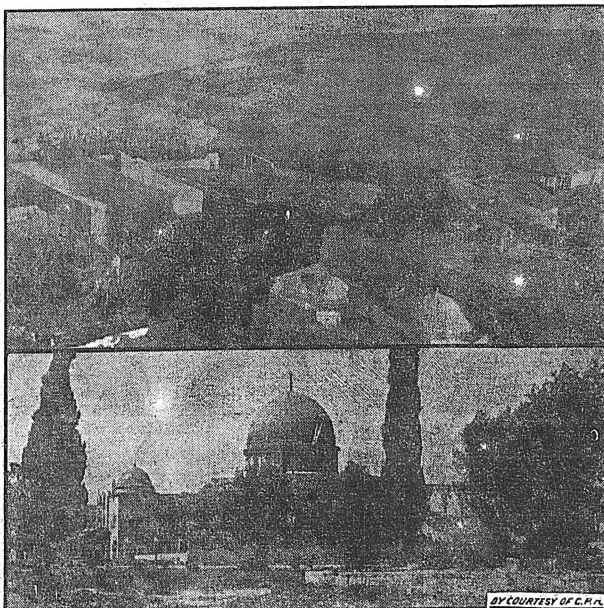

With the establishment of the Southern Saskatchewan stock yards at Moose Jaw, it is considered that the packing industry has a great future in Moose Jaw. Not only is there a large field to draw from in the ranching country to the north and west in the province, but also a considerable portion of the stock from Alberta passes through this city on its way to eastern markets, a fact which greatly facilitates the purchasing end of the packing business.

Work will be commenced immediately on the property and every effort will be made to have the plant running to capacity before the fall trade opens.

You can't always tell what's in a bottle by reading the label.

Office seeking may be neither a trade nor a profession, but a disease.

Ancient Mosque of Omar

The upper picture is a view of Omar taken from the top of the wall. Beneath is a back view of the famous Mosque of Omar.

BAR U AND NAMAKA FARM PERCHERONS

The largest stud of the Pure-bred Percherons in the World. The A. & F. Percheron-breeding Farm established in Canada. The only firm on the American continent from which British breeders have selected Percheron breeding stock to establish studs in Britain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be satisfied with the cheap cut salesmen brought in by irresponsible dealers and stallion peddlers from the United States, when you can buy the best individuals of the best breeding raised right here in Alberta by men who have been in the breeding business for 25 years, and expect to remain in the business. We have seventy-four head of Pure-bred Percheron Stallions of every type and size now on hand to select from. You can see their sires and dams, and if you cannot choose from the lot to suit you we will give you assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time.—Address:

GEORGE LANE (Desk B.), CALGARY, ALBERTA

FARMERS BREED PERCHERONS

The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to own—a pleasure to handle. You will make no mistake in your horse breeding this year if you use a Percheron sire.

WRITE FOR INFORMATION AND LITERATURE. Let us put you in touch with the best Canadian Percheron Breeds. Mention this paper when writing.

The Canadian Percheron Horsebreeders' Association
William H. Wilson, Secretary (Desk A.), Calgary, Alberta

Steer Warships by Wireless

During Experiments Destroyer Was Manoeuvred With Not A Single Man Aboard

The British Admiralty reports considerable progress in recent tests of applying wireless control to vessels and torpedoes. Warships with crews of only a few men are regarded as an early possibility as a result of experiments. The Daily Mail says: "By using hertzian waves the wireless warriors of our fleet have succeeded in controlling torpedo craft from a distance of some miles. During the experiments a destroyer was manoeuvred by wireless with not a single man aboard. By touching the wheel, a vessel is easily steered by the invisible force. Ships' searchlights were also turned by wireless."

SAFE AND EFFICIENT HOME TREATMENT

Many Weak and Ailing People Who Have Been Hoping Strongly Recommend Dr. Williams' Pink Pills

There is only one way to build up a run down system if the blood is pale and thin. Many diseases are caused by thin blood. Other diseases such as indigestion and rheumatism cause the blood to become thin and the wasting effect of these disorders cannot be combated successfully until the blood is restored to its normal condition.

Pallor, nervousness, indigestion, sleeplessness, headaches, dizzy spells, shortness of breath, palpitation of the heart, these are a few of the symptoms of an anemic bloodless condition. Some of them are not naturally associated with thin blood, but the quickest way to overcome them is to make the blood rich and red. Dr. Williams' Pink Pills do one thing and do it well. They build up the blood increasing the number of red corpuscles. As this is done the blood becomes a richer red—and is able to carry more oxygen, the great supporter of human life. As the blood improves in quality the rest of the body is better nourished and the functions of the body are better performed. The glands of the stomach are stimulated and the first sign of improvement is usually a better appetite and better digestion.

Dr. Williams' Pink Pills have been used for years as a bloodmaking tonic and system builder with such good results that in every community there are many people who are recommending this remedy to their friends and to others who are afflicted. Here is the statement of one of the men among thousands who have used Dr. Williams' Pink Pills for their own great advantage. Mrs. A. M. Henderson, N.S. says:—"For about two years I was a great sufferer from indigestion, which seemed to carry with it a complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea and vomiting. At other times gas would form in the stomach to such an extent that my heart would palpitate at an alarming rate. These conditions brought on extreme nervousness and irritability, and I found my general health so much affected, that the least exertion would tire me and I slept but poorly. I had been doctoring for several months with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow his advice and got half a dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can cheerfully recommend Dr. Williams' Pink Pills to similar sufferers."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia, after effects of the grip and fevers. The pills are guaranteed to be free from opiates or any harmful drug and can not injure the most delicate system. You can get these pills through any dealer in medicine, or by mail at 30 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Squirrels As Big As Cats

There is no country that can rival North America for the great number of squirrels, both species and subspecies, represented in her fauna. In so far as brilliancy of color and size are concerned, however, says the American Forestry Magazine of Washington, the handsomest and largest of squirrels in the world are found in the Orient and the East Indies, along the coast of Malabar is found a squirrel as big as an ordinary cat; this animal is bright red on the upper part of its body, offset by the most intense black, while all the lower parts are of a clear yellow.

A smile is cooler in summer and warmer in winter than a frown.

Horse Shortage Is Acute

What Are The Prospects of the Draft Horse Business

The pamphlet of the Northwest farmer just published, contains some interesting information for horsemen.

Horses from this continent are going to Great Britain. Buyers from France, Belgium and even Japan are over here now looking over the situation. In Germany the farmers are forced to use any animal they may have to do their work. Nearly every European country is shy of horses.

It is reported that as soon as the exchange rate becomes more nearly normal, that these countries will begin to place orders here.

Here is an extract of the Weekly Bulletin of the Department of Trade and Commerce, March 15th, 1920: "Bristol, England, Feb. 17, 1920.—Investigations have been made into the present market for horses in this district. The position seems to be that as far as light horses and heavy horses with thick, well-feathered legs such as Clydesdales, Shires, etc., are concerned, there is no demand for Canadian horses. Many horses, however, which were imported from Canada for war purposes were disposed of by the government in this country with the result that the heavy horses with clean limbs have become very popular, as it is found that, as compared with the animal with heavily-haired legs, which catches so much dirt and grease, they do not require so much cleaning and are quite as suitable for many branches of work. There are therefore good possibilities for the importing of heavy clean-limbed horses, such as Percherons from Canada.

The prices at present are very high and range on the average from £125 to £250 per horse.

If any Canadian is in a position to ship these horses to this country they would likely find a good demand, provided of course that the shipments were made gradually so as not to flood the market.

On hearing from a Canadian shipper this office will be glad to put him in touch with a horse dealer who has been in the trade for many years and has customers in various parts of the United Kingdom. He would be prepared to handle the horses, and probably, if necessary, be willing to go or send some one to Canada to select the horses most suitable for this market.

On this continent, what do we see? In the few states of the American Union where formerly a surplus of horses was being produced, they have not been breeding; in fact, many of their mates have not produced a colt for two or three years. They were making more money raising grain and producing meats for the allied countries.

In the United States today there are fewer young horses in proportion to the total than at any time in the history of the country. This means that there is sure to be a scarcity of good young horses suitable for use in 1921, 22, 23, 24, with a certainty of much higher prices.

Of the 21 million horses now on farms and ranches in the United States, less than five million are of distinct types well calculated to do their particular job in life. This makes it easier for the tractor people to sell their machines; a good engine against a poor horse." Despite this, Prof. W. R. Handelin, chief of the department of farm organization and management, at the University of Illinois, declares that, after seven years cost studies on Illinois farms, that mechanical power, even on large farms has not displaced more than 20 per cent. of the horses used.

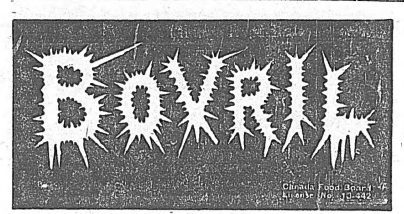

25 MILLIONS!

"Cascarets" is the biggest selling Laxative-Cathartic for Liver and Bowels

Twenty-five million boxes of Cascarets were sold last year to folks who wanted relief without injury from Constipation, Bloating, Indigestion, Gases, Colic and Sick Headache. Cascarets work while you sleep, removing the toxins, poisons and sour, fermenting waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They never weaken or shock the liver like calomel or harsh pills. Cascarets cost so little too.

Col. Barker Honored

Lieut.-Col. Wm. G. Barker, V.C., D.S.O., has been awarded a second silver medal by the King of Italy for his wonderful fight in October, 1918, in which he tackled sixty Hunz single-handed, and shot down six of them before he was brought down by enemy fire. The award reads: "Protector of the air." Col. Barker now holds more decorations than any other living British airman.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious, fruity taste. Find directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Old-Fashioned Girl
Mrs. Olden.—What did you marry for, my dear; love, money, position or what?
Mrs. Bridley.—For a husband. (New Haven Register).

Dyes Her Garments But None Can Tell

"Diamond Dyes" Turn Faded, Shabby Apparel Into New. Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods, dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings—everything.

The Direction Book with each package tells how to use Diamond Dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

How He Felt

A pretty girl asked a soldier who was just discharged from the hospital, "And how did you feel when the bullet went through your arm?" "Well," said the hero, "I felt distinctly bored, don't you know?"

Domestic Express Money Orders are on sale in five thousand offices throughout Canada.

KNITTING YARN. OUR FINEST Red Cross quality in sixteen colors. Twenty cents per skein. Sample mailed twenty-five cents. Georgetown Woolen Mills, Georgetown, Ontario.

Wantmore Peanut Butter Fudge

Two squares chocolate, two and a half cups granulated sugar, two-thirds cup of milk, one level tablespoon butter, two tablespoons Fowler's Wantmore Peanut Butter, pinch salt. Cook the chocolate, sugar and milk together until a little in cold water forms a soft ball, then add the peanut butter and salt and beat until thick. Turn into greased pan, and when nearly cut into squares, be sure and use Fowler's Wantmore Peanut Butter, as no other peanut butter will make it as good.

At the Musicals

Guest.—What a fine touch that pianist has.
Host.—I guess I know it; he touched me for a hundred just before you came in.

AFTER GRIP OR FLU

WINTER COLDS—BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak—then indigestion.

Dr. Pierce's Golden Medical Discovery, made from wild roots and barks, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what you need to give you vim, vigor and vitality.

Take the "Discovery" as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels.

You can procure a trial package of the tablets by sending 10c. to the Invalids' Hotel, Buffalo, N.Y., or branch Laboratory in Bridgeburg, Ontario.

SINCLAIR, SASK.—"I have taken Dr. Pierce's Golden Medical Discovery for liver trouble, and found it excellent, and would not be without it. I suffered from constipation of the liver about six years ago and I always say that this medicine has saved my life. I have been a family for colds and it cured them in a very short time. We must have about a dozen bottles of the 'Discovery'."—Mrs. Enoch Mitchell.

KITCHENER, ONT.—"I had become all run-down, was weak and nervous. My blood had also. I took the 'Golden Medical Discovery' and was completely restored to good health. I am always recommending this medicine to my friends, many of whom have had equally good results."—Mrs. E. R. KERR, Kitchener, Ont.

Why Eve Liked Apples

"Alas!" sighed young Callow, "if only Eve hadn't been so fond of apples."
"My dear boy," said Cynicus, "Eve wasn't so very fond of apples, but that was the only forbidden fruit."

Instead of sending a friend on a fool's errand, go yourself.

Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

99 cents a box, all dealers, or EDMONDSON, Bates & Co., Ltd., Toronto.

Dr. Chase's Ointment

Got Him to Advertise

Persistence Had Its Reward After Many Days

An advertising salesman connected with the Syracuse Post Standard told me recently of his difficulties in persuading owners of little shops in his community to advertise, and he furnished me with a concrete illustration of how persistent he has to be to secure contracts from some of them.

He told me that he had called on one man twice a week for several years. Of course, he got very well acquainted with this man. He had been a merchant in a small way for over half a century merely making a living and that's all, while he might have made a fortune had he commenced his career by employing advertisers in his home-town newspapers.

This advertising salesman called on this merchant on his eighty-fourth birthday and congratulated him, remarking on his splendid physical condition and telling him that instead of looking eighty-four he didn't look a day over sixty-five.

This pleased the old gentleman so much that he said to the advertising salesman, "Well, you have been trying to get me to advertise for a good many years, and I am going to celebrate my birthday by giving you an advertisement!" Whereupon he told him to insert a two-inch ad.

Now, the moral of this little story is: Keep at a business man and persuade him to advertise even if he lives to be eighty-four before he starts.

It is never too late to get started on the right track—W. C. Freckman, in Fourth Estate.

Czechs to Cross Canada

The Canadian Government was asked some days ago by the war office if 50,000 Czech-Slovak troops returning from Siberia to their own newly formed republic, could be transported across Canada. These troops, after a difficult journey, joined the anti-Bolshevik forces in Siberia and fought there for a considerable period. They are now to return home, and as they are "cross Russia in doing so, it is proposed that they should be transported across the Pacific to Canada; should travel through Canada to the Atlantic, and so journey to their own country in Europe.

Minard's Liniment For Sale Everywhere.

His Party

The Countess of Warwick, who has been adopted as Labor candidate for East Walthamston, has long been noted for her practical interest in welfare work.

One of her best stories concerns an occasion when she canvassed the humble quarters of a northern town on behalf of a well-known Labor leader, and she countered at the first house she visited a matron of the most determined character. "May I see Mr.?" she asked. "No, you can't," answered the matron decisively. "But I want to know what party he belongs to," said Lady Warwick. The woman drew up her tall figure. "Well, take a good look at me," she said. "I'm the party he belongs to!"

Lethbridge's Export Trade

Exports to the value of \$1,695,621.85 was exported in 1919. cattle formed the biggest portion of these exports, 17,159 head having been shipped to southern ports. These were valued at \$854,512.80. Horses for exhibition and ranching purposes, potatoes, personal effects, and wool, comprised the remainder of the export. The total value of the wool exported from Lethbridge in 1919 was \$315,544.95.

Just Arrived

We have on track to-day a car of the well known O.K. Brand of

B.C. APPLES

Miss M. Dobson, who has been visiting at the home of Mr. and Mrs. F. L. Boyer, returned to Vulcan last week.

Mrs. C. Wylie returned last Friday, after spending three weeks with her parents at Alaska.

Mr. M. E. Bird, who has been visiting at Niagara Falls and New Brunswick, returned last week.

Mr. Hugh Mitchell attended the Teachers' Convention held in Hanna last Thursday and Friday.

BORN—To Mr. and Mrs. Ray Robison, on Monday, October 18, a daughter.

Local U. F. A. Meeting

The Chinook Local U.F.A. held their first meeting of the season on Saturday evening last. It was decided to hold meetings every other Friday evening, the first meeting to be held Nov. 5.

After the business of the evening was finished, Mr. Harris, District Director for Medicine Hat Federal Riding, addressed the meeting on the political and financial problems of the farmer.

Mr. Harris said in part:—

"The farmers' hope for redress lies in organization. We must organize to secure control of government, to initiate legislation that will give us a square deal. Next, we must control the sale of our own products and set our price as other classes do. That price must cover all expenses and give a fair margin of profit. We must also secure a banking service that will loan money to the farmer on his wheat so that he can hold it for better prices."

Marriage

Gordon—McNall

On Wednesday, October 20, at the home of Rev. A. McTaggart, Pastor of St. Andrew's Church, Calgary, Miss Jessie, youngest daughter of the late Mr. and Mrs. James McNall, Killmarnock, Scotland, was united in marriage to Mr. Donald Gordon of Chinook, Alberta. The ceremony was performed by the Rev. Mr. A. McTaggart.

**Sixty Days' Grace
Given for Liquor
Importation**

Importation of liquor in the provinces which voted "dry" last Monday will still be possible for a period of at least sixty days. Provision is made in the amendments to the Canada Temperance Act passed last session for the issuance of the necessary proclamations by the federal government but not before a period of sixty days has elapsed, after the adoption by a province of the bone-dry principle.

A farmer writing to a friend, to whom he felt under obligations for introducing a variety of swine, thus unboasted himself: "Respected sir, I went to the fair. I found several pigs of our own variety of beasts, and I was astonished at not seeing you there."

CLASSIFIED ADS.
